Annotate to Remember

Many people find that marking their texts with highlighter pens or annotating them by writing in the margins helps them to concentrate, and it enhances their understanding. Discover this active reading experience with PDF Expert.

Mark Important Things

As you read books, contracts or legal papers, highlight meaningful parts you need to remember or refer to later. Marking the key points is a way to not just passively read but to fully interact with a text and organize the information in a logical, efficient way.
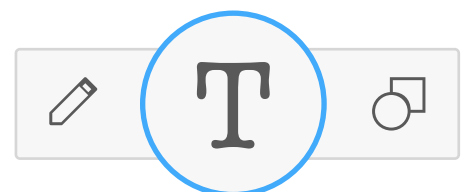

Colors That Matter

Not all information is equally important and colors will show the value of each point. For example, use yellow for main ideas, orange for the complementary info, green for definitions, pink for titles, and red for disagreements.

Main ideas
Complementary info
Definitions
Titles
Disagreements

Add Extra Value

Enrich your PDFs with important remarks and thoughts by typing the text comments in the margins of the document. These comments are searchable; you can easily find them later.
